Mayo Bottom Flooding Highlights Holt Talk

By Ernie Smothers
smothers@mckenziebanner.com

HUNTINGDON (March 11) — During the Carroll County Chamber of Commerce-sponsored Capitol Talk featuring District 76 State Representative Andy Holt, Chamber President Brad Hurley's question to Holt regarding what Carroll County could do to stop flooding on Highway 22 between McKenzie and Huntingdon led to a discussion between Holt, Hurley, and Carroll County Mayor Kenny McBride.

Responding to Hurley's question about flooding the previous day that submerged traffic lanes and closed a portion of Highway 22 at Mayo Bottom, Holt said, "There is not much that can be done relative to catastrophic acts of God. Flooding like this is going to occur when catastrophic amounts of rain fall. There isn't much anyone can do about it."

Responding, Hurley said, "I don't think the rainfall that we experienced in the last few days can be called 'catastrophic'. We have spent millions of dollars building Highway 22, and yet we still experience flooding and road closures often in Mayo bottom."

Carroll County Mayor McBride injected, "Mayo bottom flooded 30 days after Highway 22 was opened for travel. The road surface at Mayo bottom was supposed to be three feet higher than what exists there, now. Recurring flooding and road closures will continue in that area unless something is done to correct it."

Holt noted that flooding issues in Mayo bottom and other road-related problems statewide need to be fixed via usage of a sizeable portion of the state's nearly \$1 billion in surplus funds.

He said, "The state currently has a surplus in capital exceeding \$943.7 million. That massive monetary surplus has led to what

I refer to as the 'fight of the century' on legislative hill between Tennessee lawmakers in regard to how to spend it. I will tell you that I cannot support any legislation by Governor Haslam for a gas tax hike to pay for road improvements when the state has that kind of money sitting there at its disposal."

Holt said that he did not foresee Haslam pushing for a gas tax bill in 2016.

He added, "Tennessee roads are rated as the third-best in America, and our state does not owe a penny on road debt. That is staggering. There are plenty of states that wish they were in the financial position that we are with their road debt. I would like to see several million dollars of state surplus money spent to repair and upgrade roads and bridges. County road improvements are being pushed for aggressively at the state level."

He opined that the state has done a better job in providing recurring funds for education than for road improvements.

Holt informed attendees that a unemployment bill containing new language to combat unemployment filing misuse is being pushed by lawmakers.

He said, "Right now, people that file illegally for unemployment can receive payment for eight weeks before having to pay any money back. Until recently, Tennessee Department of Labor employees could only implement around 1,500 random searches for fraud out of an estimated 21,000 unemployment claims filed per week. However, a new computer system has been implemented to allow a much larger search for illegal unemployment filings. On average, \$225 is paid out per individual filer per week. We are attempting to drive down illegal unemployment filings in order to reduce unemployment insurance

costs paid by employers."

Responding to a question by Hollow Rock-Bruceton Director of School's David Duncan regarding the potential negative impact that the Governor's proposed school voucher plan will have on small schools, Holt said, "First of all, I will not vote for anything that will adversely impact small schools. I believe that rural schools are the best model for success because they consistently out-perform larger, metropolitan-based school systems. All Carroll County schools are performing well. None of our schools would be affected by the proposed voucher plan."

Holt said that the proposed voucher program was focused on failing schools in Shelby, Knox, Davidson, and Hamilton County's.

He said, "I have been to Shelby County and seen the horrible conditions there. I am for the voucher program because I believe students in failing schools should have a chance to escape from those schools and attend schools where they can receive a solid education. I've seen bathrooms in Shelby County schools that had obscenities spray painted on the walls that the school apparently had not attempted to cover up. Many of the schools we toured in Shelby County had fallen into dismal shape, with only 45 of 90 said schools in that county rising above the bottom three-percent academic testing average that would qualify students for vouchers."

Holt concluded by addressing the statewide computer crash of the new online school assessment test, TNReady.

He said, "The debacle of TN 'not so' Ready program is contentious. TNReady computer crashes caused by network issues are forcing school systems statewide to return to pencil and paper testing. It's just a big mess."

And win Elijah did. In grueling competition pitting the top middle school spellers from schools throughout West Tennessee, Elijah battled round-by-round before eventually winning the event by correctly spelling the word, prosecute.

Summer, who teaches high school English at Central High School said, "I was excited, but I was also nervous. Every time Elijah got up to spell, I held my breath. I knew he knew the stuff, I just didn't want him to get nervous and miss something."

Along with the first place trophy, Elijah received the Samuel Louis Sugarman Award, a one-year subscription to Britannica Online Premium, and a new dictionary.

The Brewers said that Elijah's starting to read at a young age helped him to win the event.

Summer said, "Harry Potter, Hunger Games — whatever he can get his hands on-Elijah has read anything and everything. Reading really does help build vocabulary and word recognition."

Elijah added, "My advice to

Four counties in West Tennessee were listed among the top 10 in unemployment. Those included Benton (8.0 percent),

The nine-county region of Northwest Tennessee continues as the geographic area with the highest overall unemployment. The collective rate is 6.9 percent unemployment for the counties of Benton, Carroll, Crockett, Dyer, Gibson, Henry, Lake, Obion, and Weakley.

The counties with the low-

West Tennessee Spelling Bee Champion Honored

By Ernie Smothers

BRUCETON (March 14) — During the regular monthly meeting of the Hollow Rock-Bruceton Special School District Board of Education, Central Middle School eighth grader Elijah Brewer was honored by the board for winning the West Tennessee Regional Spelling Bee in Jackson at Union University.

Introducing Elijah to the board, Central High School Principal Joe Norval said, "We are delighted that Elijah won first place over so many talented students from across West Tennessee and will represent our school in Washington D.C. at the Scripps National Spelling Bee May 22-28. It has been 20 years since a Tiger won the West Tennessee Spelling Bee, and we are proud to have the title back at Hollow Rock-Bruceton."

Elijah said that he battled through 13 tough rounds of competition before winning the championship.

Norval informed the board that CHS Beta Club has recently won several distinctions including: the National Merit Award and the National Beta Club School of Distinction.

He said, "On top of that we have five National Beta Club scholarship semifinalists. They are Kayla Woods, Haley Williams, Kaitlyn Wilson, Trevor Hall, and Kelsey Runions. This is the second year in a row that CHS Beta has had five National scholarship

semifinalists. For a school our size, that is nothing short of amazing. It speaks volumes about the efforts being put forth by our educators and students at Central. It is definitely something we should be proud of."

Norval told board members that the recent visit by Assistant U.S. Attorney General Debra Ireland with Central middle and high school students was remarkable.

He said, "Ms. Ireland spoke to students and educators about cyber safety, cyber bullying, and protecting their reputations in our high tech society. She warned that although smart phones and the internet can help one feel closer to others; it can also be used against you and one photo that makes its way onto the world-wide web could later cost students scholarships, jobs or worse. Overall, it was a very eye-opening afternoon for many students. We are thankful to the Student Health Council for arranging the visit from Ms. Ireland. Hopefully, we can have her back at Central in the future."

CHS Librarian Sandi Walden informed the board on progress of library provided by extra funding provided by the board.

She said, "Thanks to the school board's extra funding, I purchased new furniture, an interactive white board, and laptop computers. Due to increased technology, I was able to collaborate on curriculum standards with Mr. Ervin's class and Mr. Adkisson's class and conduct

research projects, technology projects, and book research. I am quite excited to work with other teachers on projects, and the new technology has made this possible."

Walden said that during her assessment of books in the library, she found one book that had not been checked out since 1973.

She said, "The last person who checked the book out was board member Brad Hurley."

HRBSSD Chairman Tim Runions thanked Walden for her efforts to upgrade the library.

During director's report, Duncan praised the Central Tiger Band program for excelling at the annual WTSBOA Solo and Ensemble event at Jackson.

He said, "Our students performed 28 solos, 4 duets, 2 trios and a large ensemble of 8. 10 Students performed in 2 events and 2 students performed in 3 events. 36 out of 39 students (92-percent) earned a Superior Rating. Overall, the 36 students earned 24 Superior Ratings and 24 Excellent Ratings to bring home 48 medals. We are very proud of their hard work."

Duncan said that he is conducting applicant interviews for the Central High School Principal position this week on Wednesday, Thursday and next Monday.

He concluded, "If funding is available, I would like to add an additional sixth grade teaching position for next school year."

Highway 22 between Huntingdon and McKenzie known as Mayo's Bottom was forced to close later in the afternoon. The low lying area quickly accumulated runoff and drainage from the waters of the nearby South Fork Obion River.

Cars continued to travel the highway as the four-lane decreased to two lanes of traffic with standing water crossing the highway. By late afternoon the highway was closed by the Tenn. Department of Transportation (TDOT). At approximately 6:00 p.m., the Huntingdon Fire and Rescue Department was dispatched to the area after a car was reported swept off the highway after crossing barricades.

According to Janice Newman, Carroll County's Emergency Management Agency (EMA) Director, there were thirteen road closures made by the Carroll County Highway Department. Newman stated, "Things went pretty good considering the amount of rain that fell. We had no reports of home damage, and there were no home evacuations." Newman noted that Ephesus Church Road was the only road declared washed out by the highway department.

Jay Nance, District Coordinator of TEMA, informed Carroll County EMA of other highway closures other than Highway 22. Those highways in Carroll County included; State Route (SR)-220A, SR-105, SR-219, and SR-77.

Weakley County was hit hard after a levee broke in the Kenton area forcing some residents of the Martin area to evacuate. Estimated property damage has not been determined at this time.

Henry County had several road closures according to Ronald Watkins, EMA Director of

Henry County. Watkins commented, "We had 24 roads closed during the afternoon on March 10 and on March 11, after the rain had stopped, we had 12 roads still closed that morning. Henry County had a couple of roads washed out, but mostly culverts were stopped up and Henry County Highway Department worked hard to clear all the roads as soon as possible. No structures were damaged as far as I know except for a couple of trailer parks that had some underpinning damage due to high water. There were no reports of injuries due to flooding."

The heavy rains forced area school closures. Buses returned students home Thursday between 9:30 a.m. and 10:30 a.m.

Cuba, A Land of
Warm, Kind People

In 1979, I was at the southern-most tip of Key West Florida, where I saw a sign indicating I was 90 miles from Cuba. I peered at the ocean knowing some of the history of the rocky relations between Cuba and the U.S.

I never dreamed I would be able to travel to the country, because Americans were mostly prohibited from traveling there due to mutual embargoes of goods, services and restrictions on travel.

A coup in 1959, led by Fidel Castro, overthrew the government, causing the relations with the United States to further deteriorate. The two governments were sworn enemies. The failed Bay of Pigs invasion by the U.S. and the Cuban Missile Crisis, in which the Soviets moved nuclear missiles into Cuba, pushed the U.S. to the brink of nuclear war. Making matters worse, on November 22, 1063, Lee Harvey Oswald, a sympathizer of Cuba and the Soviet Union, shot and killed President John F. Kennedy in Dallas.

In the early 1960s, it was not uncommon for students to practice “duck and cover” drills at school. Even in high school, students at McKenzie High School were taught how to survive a nuclear attack and the location of the local fallout shelters.

For more than 50 years, the governments of the United States and Cuba have maintained various levels of restrictions on travel and the exchange of goods. There were few Americans who could legally travel to the country. Most of those restrictions

still remain in effect.

The Cuban government controls most aspects of the Cubans’ life. In the Socialist-style government, the citizens all receive similar amounts of pay. Many of them live in conditions Americans would call poverty. Others have new financial resources as President Raul Castro, Fidel’s younger brother, experiments with a few, but limited market-based ventures.

I traveled to Havana and Vinales with students and a faculty member from Bethel University. Those seven students and their teacher, Mrs. Stacie Freeman, were remarkable.

Our goal was to help the people of Cuba. We worked on an organic vegetable farm and a tobacco farm. These young people did yeoman’s work in their mission to provide service.

The group stayed in individual homes of Cubans, who had a special license to host guests.

We traveled by plane to Cuba. In country, we traveled by bus, classic American cars (pre-1959), horse, and ox-drawn cart. We also walked many miles.

Bright Lights Volunteers, based in Dallas, was the coordinating agency for the service-learning trip.

The Bethel students learned so much, worked very hard, and made friends with Cubans and each other. They found the Cubans to be exceptionally friendly. In relation to our experience, the Cuban people were warm and kind people.

I plan to offer more details about the trip in The McKenzie Banner on March 22, when President Obama visits Cuba.

Hunker Down with Kes

When The Bite Could Be Worse Than The Bark!

Is it just me? Or have we gone a little overboard on the potential side effects of our medicines today. They come on TV with a one minute commercial for some pill I can’t pronounce and have no idea what malady it’s aiming to fix. The first eight seconds show the smiley face explaining how much better he or she is feeling after just a few days on this product. The next fifty-two outline what could go wrong if you swallow the blooming tablet!

I don’t know about you, but at the first mention that it could cause an irregular heartbeat, they have wasted their advertising money on me! And you can bet your last Advil I’m not going to willingly swallow something that could possibly cause blood clots in my legs or lungs, give me chest pains or tightness, make my face or tongue swell, cause me to have trouble breathing (duh), make me faint or become dizzy, have me coughing up or vomiting blood, cause unusual bleeding from the gums, give me headaches, hair loss, nosebleeds, joint pain, night blindness, bedwetting, neuralgia, blurred vision, hallucinations or warn me that I can not take this product with a Diet Coke.

I don’t want to have an allergic reaction to anything! I have enough problems with my kidneys already. I couldn’t take another round of hearing loss. I’m not messing with anything where one of the results might be “Seek medical help immediately!” Thankfully, I’m not pregnant or breastfeeding.

I believe whole heartedly in full disclosure but I don’t want to be frightened out of my mind!

I know people are in pain. I am not making light of that. And, of course, we need to take

advantage of all modern medicine has to offer. I’m just wondering out loud as to where the line is drawn, or should be drawn. You don’t reckon we could reach the point where the large pharmaceutical folks are taking advantage of us.

The side effect of that Vicks Salve Mother rubbed on our little chest when we had a cold was,....we got better! I’m not sure how the sassafras tea worked or even the exact purpose but we downed a few glasses of it every time we were feeling puny. There was no “warning label” on the tea unless someone carved it on the tree beside where Mom dug up the roots.

If we got stung by a wasp, we’d dab a moist wad of chewing tobacco on it and move on. If you couldn’t stop the bleeding with a coal oil soaked rag pressed against it, then someone ran down to Mr. Purvis’s barn and returned with a handful of cobwebs. If a rash developed over a large portion of your body, Daddy would mix up a little sulfur and burnt oil and apply it directly to the sores. He also used the same mixture when ole Duke came home after a week out on the town with a scorching case of the mange.

Crazy us, we had no clue as to the possibility of side effects. There was a label on that S-S-S Tonic bottle but I don’t know of anyone that ever read it. There was also a cross and skull bones on the can of rat poison. But it was superfluous; nobody in his right mind was going to gulp down that stuff!

The daily dose of Castor Oil was a skip and a hop past awful. But Mom insisted it was the boost to keep us healthy. And years after we were grown she’d point out how fit we were and give more than a fair share of the credit

to the Castor Oil treatments. It SHOULD have had a warning, “One drop will gag a maggot!”

I read in a recent medical advertisement that you should not take this pill if you have “Multiple Endocrine Neoplasia syndrome type 2.” I couldn’t sleep for a week! I didn’t know if I had this “thing” or not. I’m sure there are some tell-tale symptoms. Leon threw me into the waste water treatment plant when we were kids. I don’t know how you contract that Multiple Endocrine Neoplasia illness...but you know that swim had to have had some kind of lasting effect!

Then I got to thinking about the baby bed Mom forced me into. It had at least six coats of lead paint! And I remembered drinking all that water out of the garden hose. And breathing in that noxious chlorine at the swimming pool...

No wonder my eyes have been watering more than usual lately. And my right hand is swollen every morning. My energy seems to be sapped after the most mundane task. I can’t run five miles like I used to. I sit down and don’t want to get up. I’m thinking I’d better start paying attention to some of this new miracle medicine...

Until Cathy informed me I wasn’t sick...I was old!

I’m sure some company out there has got a pill for that.

Respectfully,
Kes

Gasoline Prices Rise
16 Cents in Week

March 14 — Average retail gasoline prices in Tennessee have risen 16.3 cents per gallon in the past week, averaging \$1.75/g yesterday, according to GasBuddy’s daily survey of 3,821 gas outlets in Tennessee. This compares with the national average that has increased 11.9 cents per gallon in the last week to \$1.93/g, according to gasoline price website GasBuddy.com.

Including the change in gas prices in Tennessee during the past week, prices yesterday were 44.5 cents per gallon lower than the same day one year ago and are 24.9 cents per gallon higher than a month ago. The national average has increased 23.9 cents per gallon during the last month and stands 50.2 cents per gallon lower than this day one year ago.

According to GasBuddy historical data, gasoline prices on March 14 in Tennessee have ranged widely over the last five years: \$2.20/g in 2015, \$3.25/g in 2014, \$3.51/g in 2013, \$3.61/g in 2012 and \$3.41/g in 2011.

Areas nearby Tennessee and their current gas price climate:

Chattanooga- \$1.77/g, up 19.5 cents per gallon from last week’s \$1.57/g.

Nashville- \$1.79/g, up 20.3 cents per gallon from last week’s \$1.59/g.

Huntsville- \$1.70/g, up 11.2 cents per gallon from last week’s \$1.59/g.

“The cheapest gas prices of the year are now solidly behind us as the national average will soon again hit \$2,” said Patrick DeHaan, senior petroleum analyst for GasBuddy. “The current upward trend is an unfortunate one that we witness every year, but the sudden jolt this time around has been enhanced by a 45% jump in the price of crude oil in the last month. The large jump in crude oil prices comes amidst record oil inventories, yet it’s the mere threat that oil supply could be slashed from OPEC and non-OPEC countries at the same time oil demand is growing driving prices higher. And while oil inventories sound staggering at over 500 million barrels, that number represents 26 days of U.S. oil consumption, a rise of three days versus inventories a year ago. At the end of the day, we expect this rally in gasoline prices to run for another month or two before stalling out. Perhaps the best news? Motorists still could see the cheapest average summer gasoline prices in over a decade,” DeHaan said.

The Kennel Club

By Clayburn Peebles

I found myself needing to eat supper alone in Jackson the other night, and I decided, of course, to go to the fast food route. The place I used to go, whose name will not be mentioned, having done away with slaw, I decided to try Burger King.

And I was delighted and surprised to find grilled hot dogs on the menu. I have since discovered that the 62-year-old fast food chain has never before sold hot dogs and that their starting to do so now is a matter of some controversy. Although a few national chains offer hot dogs, most don’t, and the really famous, iconic hot dogs are all sold at local joints.

Such businesses are on nearly every other corner in Chicago, and other cities, but they are few and far between here in West Tennessee.

Food critics uniformly panned the new Burger King dogs, using such terms as “disgusting disgrace” and “a culinary calamity.” This is hot dogs we’re talking about now, not beef tartare or coq au vin. Just plain hot dogs.

But not having heard or read any of the reviews, I ordered one of Burger King’s new offerings, and I enjoyed it so much I wished I had ordered two. It was surprisingly good.

And the rest of the non-food critic population of America must agree with me. Early reports are that the Burger King hot dogs are selling like, well, hot cakes. The company reports that the new hot dog is one of its most successful menu items ever.

That’s the way it is with hot dogs. Some people are so prejudiced against them they can’t even bring themselves to taste one, much less appreciate its unique qualities. Others find them fun, festive and a perfect choice for a casual meal.

Lots of others do. Americans consume about seven billion hot dogs just between Memorial Day and Labor Day, 150 million of them on the Fourth of July alone. They are such an iconic American food that in 1939, President Franklin Roosevelt served them to the king and queen of England at a picnic, much to high society’s chagrin, but the king enjoyed his so much he asked for seconds.

Frankly, I like hot dogs, and I would eat them frequently were it not for my lovely young wife who finds them to be “nutritionally disadvantageous.”

No kidding, that’s what she says, and it’s not just her. Various medical authorities issue warnings on a regular basis about the fat content and carcinogenic quality of many brands of wieners, primarily because of nitrates, with which they are loaded.

So is just about every other type of processed sandwich meat, but hot dogs get most of the criticism.

And that’s just one of the controversial aspects of the humble hot dog. First of all, how do you spell it? One word, “hotdog,” or two, “hot dog?” And how should it be classified?

When asking for seconds, King George referred to it as “this delightful hotdog sandwich,” but is it really a sandwich? All sorts of people have weighed in on this debate. You can logically argue both ways with it, but I tend to think it is what we refer to in the law as sui generis, meaning in a class by itself. Unique.

Then there’s the continuing dispute over its name. Why hot dogs, and while we’re at it, whoever came up with the idea of putting them in buns?

Again, controversy. Myths and legends abound. For example, there’s a charming tale concerning the St. Louis World’s Fair that goes to the effect that a vendor there

would give his lady customers white gloves to hold the hot sausages he sold them from his pushcart, but that so many of the ladies walked away with his gloves, he came up with the idea of putting the sausages in elongated buns instead.

Not true. Neither is the name origination story that holds that a New York Journal cartoonist was at a Giants baseball game one day and saw a vendor selling sausages and yelling, “They’re red hot! Get your dachshund sausages while they’re red hot!”

The cartoonist went back to the office, so the story goes, and drew a cartoon of barking dachshund sausages nestled warmly in rolls, but not knowing how to spell “dachshund,” he simply captioned the cartoon, “Hot Dog.” One problem with that story is that no one has ever been able to find the cartoon, if it ever existed at all.

What did exist, as far back as the 1890s, and by some reports all the way to the 1860s, were pushcarts manned by German immigrants who sold sausages in buns of some sort. At Yale University, around the turn of the last century, students began referring to these carts as “dog wagons,” a joking reference to the belief among some people, going all the way back to 1845, and possibly even correct at times, that hot dog wieners contained dog meat.

At any rate, it didn’t take long for the word “dog” to become “hot dog” and just as quickly, hot dogs became a fixture at ballparks, county fairs, public parks and gathering places all around the country.

So, for at least 120 years now the humble hot dog has been the poor person’s culinary mainstay, legendary in some of its manifestations, and mundane in others, but however we eat them, we eat a lot. The average American consumes 60 of them a year.

My wife won’t let me have that many. In a year’s time I probably don’t get to eat more than a dozen.

But I relish every one of them.

Keith Max Campbell Family
We are Forever Thankful

Words can't possibly express how thankful our family is for the overwhelming acts of love, kindness, and support you have poured upon us during the loss of our loved one, Keith Max Campbell. You have shown us over and over, why we call McKenzie home, and each of you friend.

We want you to know how much your every act of love and kindness meant to us. Whether it was food, flowers, memorials, or even just a kind word or a hug- your strength and support got us through this. Each and every one of you has been a blessing to us.

There are so many people to thank! We can't possibly name you all, but please be assured we know and we appreciate everything. We praise God for allowing this "gentle giant" to be a part of our lives and knowing you are there for us, as we mourn our loss, means the world.

Again, thank you for your support; we could not have done it without you and the power of our God. Amen.

We remain forever thankful.

Inglenook Book Club March Meeting

The Inglenook Book Club held its March meeting at Lakeside Assisted Living Center with Victoria Ard and Genia Sherwood serving as hostesses. Members were treated to delicious cakes—either coconut or chocolate—made by Victoria, veggie sticks and other assorted “munchies,” and beverages.

President Zia Locke called the meeting to order and thanked the hostesses. Members stood for the Pledge of Allegiance and then recited the Club Aim and Motto.

The Recording Secretary called the roll and read the February minutes, which were approved as read. Treasurer Donna Ward reported the bank balance.

Under Committee Reports, Membership Chairman Suzanne Howell reported our current membership is full. Updates were received on various members who were absent, and Sunshine Chairman Shelia Rogers will send cards to Mary and Marvin Newman, Debbie Riley, John Baker (husband of former member Margaret Baker), Gena and Marta Manner, and Barbara Boyd.

“Happy Birthday” was sung to Jean McKinnie, Suzanne Howell, and Genia Sherwood who have March birthdays.

There was no Old Business. Under New Business, President Locke noted the passing of former member, Margaret Baker. It was unanimously voted to continue the club tradition of sending a contribution to the McKenzie library in Margaret's memory.

Vice President Victoria Ard introduced our speaker, Carolyn Moore, filling in for Barbara Boyd, who was scheduled but for health reasons could not be present. Carolyn gave Barbara's program on the reclusive southern author, Harper Lee, who gained fame with her first novel, To Kill a Mockingbird, the Pulitzer Prize-winning best seller, published in 1960.

She was born Nelle Harper Lee and was raised in Monroeville, Alabama. Her first name, Nelle, was her grandmother's first name, Ellen, spelled backward. Her father was a former newspaper editor and proprietor who also practiced law and served in the Alabama State Legislature.

As a child, Lee was a tomboy, a precocious reader, and best friends

with her schoolmate and neighbor, Truman Capote (then known as Truman Persons). Tougher than many of the boys, Lee often served as Truman's protector. Truman was picked on for being a “sissy” and for the fancy clothes he wore. Truman was living with his mother's relatives after largely being abandoned by his own parents.

In high school, Harper Lee developed an interest in English literature, and after graduating in 1944, she went to the all-female Huntingdon College in Montgomery, Alabama. She stood apart from her fellow students—cared nothing about fashion, makeup, or dating, focusing instead on her studies and her writing. She was a member of the literary honor society and the glee club.

Transferring to the University of Alabama, Lee was known for being a loner and an individualist. Pursuing her interest in writing, she contributed to the school's newspaper and its humor magazine, the Rammer Jammer, of which she eventually became editor.

Lee also began pursuing a law degree like her father, but never really was too interested and told her family that writing—not the law—was her true calling. She went to Oxford University in England as an exchange student in her junior year, and upon returning home to resume her law studies that fall, Lee dropped out after the first semester. She soon moved to New York City to follow her dreams to become a writer.

In 1949, the 23-year-old Lee arrived in New York and struggled for several years in various jobs. While there, she was reunited with old friend Truman Capote, who had by that time become one of the literary rising stars of the time. In 1956, Lee quit her job and devoted herself to her craft, thanks to a generous gift from a Broadway composer and lyricist, Michael Martin Brown, and his wife. Brown also helped her find an agent and was able to get a publishing firm interested in her first novel, To Kill a Mockingbird. The manuscript was finished in 1959.

After being awarded the Pulitzer Prize and other literary awards, a film adaptation was written in 1962. Lee visited the set during filming and did many

interviews to support the film. Earning eight Academy Award nominations, the movie version of To Kill a Mockingbird won four awards, including Best Actor for Gregory Peck's portrayal of Atticus Finch, said to have been based on Harper Lee's father.

It should also be noted that during her time in New York, Harper Lee closely collaborated with Truman Capote during the course of his writing In Cold Blood, the true story of the murder of four members of the Clutter family on their Kansas farm.

Later on in years, Harper Lee continued to live a quiet private life in New York and Monroeville, avoiding anything to do with her still-popular novel.

A sequel to this novel, Go Set a Watchman, was published last year surrounded by much controversy. It takes place when the former child character, Scout, is grown, and delves into the relationship she had with her father, Atticus. They disagreed about the subject of civil rights, and the story tackles the racial tensions brewing in the 1950s. The controversy is over the question of whether or not the novel was actually written by Harper Lee. Seven months after Watchman was published, Harper Lee died from a stroke on February 19, 2016. She was 89 years old and was buried in her home town of Monroeville.

Under Announcements, Geneva Johnson gave the upcoming schedule at The Dixie. The next meeting will be at Lakeside with Debbie Riley and Suzanne Russell scheduled as hostesses.

Members were reminded that Melinda Popplewell has the traveling paperback library with her for those interested.

After the book passing, members recited the benediction and the meeting adjourned.

Members present were Victoria Ard, Peggy Chappell, Carolyn Goodwin, Suzanne Howell, Geneva Johnson, Zia Locke, Jean McKinnie, Sandi McMahan, Carolyn Moore, Melinda Popplewell, Carolyn Potts, Marilyn Putman, Shelia Rogers, Genia Sherwood, Cindy Summers, Sally Sutton, Donna Ward, and Elaine Williams.

MHS Holds Honors Banquet

By Brad Sam
brad@mckenziebanner.com

McKENZIE (March 8) — McKenzie High School held its annual Honors Banquet Tuesday evening, sponsored by the McKenzie Rotary Club.

Following a delicious meal in the cafeteria, students, teachers, administrators, and parents gathered in the gymnasium. Principal Tim Watkins welcomed everyone and thanked Rotary members, Kiwanis members, school board members, and banquet organizers for their efforts.

He then introduced the guest speaker for the evening, 2003 MHS alumna Jasmine McMackins. A graduate of UT-Martin and the University of Memphis, she is now a private attorney at the Law Offices of Shon D. Johnson in Paris.

McMackins spoke about how, since graduating in that very gym, she's been at different times a Skyhawk, a Tiger, and a Bulldog, but she is "forever a Rebel." She boasted that she learned a lot as a Rebel, and offered an example, shouting, "Give me an 'R'!" The faithful in attendance instinctively answered, "R!" "R," McMackins explained, is for Ready. She continued the pattern with the rest: Eager and never complacent; Brave; Easy, relaxed, and in the moment, Leaders, and Strong for the weak. She said that she took all of those things with her to Martin and Memphis, and encouraged honorees to do the same wherever they go next.

Principal Watkins then announced the honor students, beginning with seniors. Each walked the stage and was presented a certificate by McMackins. Watkins then recognized the seniors who achieved honors status in each of their four years. Those seniors were presented a plaque.

Rotary President Kenny McBride then presented the Rotary Scholarship, explaining that applicants must be involved in the community, participate in extracurricular activities at school, achieve four-year honors, and exhibit high quality of character. This year's \$1,500 scholarship was awarded to Kaley Coleman.

Four-year senior honorees include: Christine G. Aden, Lindsey M. Balius, Lexie N. Bolin, Laura A. Cole, Kaley J. Coleman, Charlene A. Gilbert, Aiden A. Gonzalez, Hunter L. Harris, Kensley B. McKenzie High School Senior Class Entertains With Great Pretenders

By Jason Martin
jmartin@mckenziebannner.com

McKENZIE — The McKenzie High School Class of 2016 presented their Great Pretenders performance on March 12 and 13. The seniors entertained a packed house on both nights at the Dickey Fine Arts Building on the Bethel University campus. Parents, friends, family and members of the community were amused and

captivated by the program. Blake Baker opened the night with his taped comical rendition of the Parisian Theatre’s “Theater Lady.” Then curtains opened and lights flashed as the senior class came together in a huge choreographed production of “We’re all in this Together.” Ty Bruce, Chad Pinson, Conner Pinson, and Austin Lindsey’s previously recorded “Guitar” skit parody of a news reports on

the legalities of using a “friend’s guitar” humored the audience. The stage lights turned up as Spiros Roditis, Scott Spivey, Wayne Moore, Randy Toombs, Tim Beeler, Larry Riley and Phil Sutton gave their takeoff performance of a “Dad’s Life.” The gentlemen were accompanied by Ellie Roditis, Kelsey Spivey, Mattie Moore, Regan Toombs, Lexie Bolin, Lauren Riley and CeCe Sutton. Line-dancing was next on the list as Autumn Pratt, Andre Carter, Dylan Vinson, Brooklyn Kelly, Taylor Sawyers, Erin Parker, Mariah Kautz, Kensley Horner, Christine Aden, MacKenzie Marlow, Esmeralda Mejorado and Will Puckett danced to Luke Bryan’s “Kick up the Dust.” The Spice Girls took center-stage portrayed by Regan Toombs, Mattie Moore, Sierra Dugall, Carla Craddock and Abbey Webb. The

all-girl group performed the 90s hit “Wannabe.” Cecelia Pomphrey followed as a solo act dancing elegantly and gracefully to “Somewhere Over the Rainbow.” The audience then saw a cross-gendered “Evolution: Beyoncé/Justin Bieber” routine. Dejan McNulty, Isaiah Townes and Kenon Hutcherson dressed in drag as Beyoncé Knowles while Autumn Pratt, Mariah Kautz, Taylor Saw-

yers and Christine Aden did their best rendition of Justin Bieber. Just before intermission, a troop of girls all dressed in army fatigue pants performed a dance routine to Gwen Stefani’s “Holler Back Girl.” The young ladies dancing were Mattie Moore, Kelsey Spivey, Abbey Webb, Lindsey Balius, Lauren Riley, Regan Toombs, Ellie Roditis, Sierra Dugall, Lexie Bolin, Laura Cole, Emma McDaniel, Kaley Coleman, CeCe Sutton, Carla Craddock, Jacqualline Sawyer and Madison Allen.

“Pitch Perfect 2 Riff Off,” opened the second half of the show with the huge ensemble of CeCe Sutton, Lauren Riley, Hunter Smith, Blake Baker, Cody Shaw, Ellie Roditis, Isaiah Townes, Mike Annis, Madison Allen, Regan Toombs, Wayne Moore, Jacqualline Sawyer, Lexie Bolin, Emma McDaniels, Randy Toombs, Dejan McNulty, Kaley Coleman, Chad Pinson, Kyle Hopper, Laura Cole, Mitch Merrick, Jack Surber, Russell Turman, Taylor Sawyers, Trevor Roof, Mariah Kautz, Scott Spivey, Kelsey Spivey, Kenon Hutcherson, Dylan Vinson, Cameron Oakley, Carla Craddock, Mattie Moore, Noah McEwen, Chase Kelley, Christine Aden and Spiro Roditis.

Abbey Webb took the stage for her performance of Celine Dions “Because You Loved Me.” A unique performance of “Mario Theme Song” from Nintendo was acted out by Ashley Casey, Nathan Jones, Ty Bruce, Mackenzie Marlow, Jeremiah Bailey, Hunter Smith, Cecelia Pomphrey, Austin Lindsey, Conner Pinson and Kelsey Horner.

“Rebel Shuffle” was next on the slate of acts. Performed by the senior football players, the “Rebel Shuffle” was a spin-off of the 1985 Chicago Bears’ “Super Bowl Shuffle.” The act included Blake Baker, Russell Turman, Dejan McNulty, Mitch Merrick, Jack Surber, Hunter Harris, Cameron Oakley, Noah McEwen, Chase Kelley, and Brandy Turman.

C+C Music Factory’s “Everybody Dance Now” was performed by Sandi Roditis, Cindy Floyd, Kelsey Spivey, Kelly Kelley, Kaley Coleman, Esmeralda Mejorado, Jennifer Spivey, Ellie Roditis, Martha Reyes, and Spiros Roditis.

A dance routine entitled “Bet Ya Can’t Do It Like Me” was done by Kenon Hutcherson, Madison Allen, Isaiah Townes, Mariah Kautz, Jacqualline Sawyer, Dejan McNulty and Abbey Webb. Dylan Vinson was joined by his mother Michelle Vinson on center stage for a performance of Jason Matthews’ “That’s What Mommas Do.” At the end of the song the senior boys presented their mother’s with a rose.

“Evolution of Dance” was performed by Kelsey Horner, Autumn Pratt, Brooklyn Kelly, Erin Parker, Christine Aden, Mackenzie Marlow, Esmeralda Merjorado and Andre Carter.

The lights dimmed as the next act took the stage. Then the spotlight hit a group of young men in white tank tops and short Santaesk shorts donned with Santa hats acting out a parody from Mean Girls to “Jingle Bell Rock.” The wannabe Santas were Kyle Hopper, Noah McEwen, Chase Kelley, Cameron Oakley and Jack Surber.

“N SYNC” “Bye, Bye, Bye,” was performed by Laura Cole, CeCe Sutton, Lexie Bolin and Lindsey Balius.

As the night drew to a close Kelsey Spivey, Abbey Webb, Regan Toombs, Ellie Roditis, Kaley Coleman, Aaron Hiliard, Cameron Oakley, Jack Surber, Carla Craddock, Conner Pinson and Chase Kelley were on stage for “What Do I Want to be When I Grow Up?” The finale of the night was from High School Musical with the full cast of MHS seniors.

The proceeds from the show help fund this year’s Project Graduation.

Lady Rebels Fall to South Gibson in Season Opener

By Brad Sam
brad@mckenziebanner.com

McKENZIE (March 14) — The Lady Rebels opened their season at home Monday, playing one of the area's few ballgames as many fields were still drenched from the recent bout of heavy rains. The visiting South Gibson Lady Hornets led just 2-0 after four innings, but exploded

for 9 runs over the next two innings to claim an 11-1 victory.

Lady Hornet Kaitlyn Martin took the complete-game win, giving up one earned run on four hits while striking out 13 and walking three in six innings of work.

Martin also led South Gibson offensively, going 3-for-4 with a pair of doubles, three runs, four RBIs, and a stolen base.

Lady Rebel Audrie Washburn took the complete-game loss, giving up 11 runs (eight earned) on 12 hits while striking out four and walking two in six innings.

Carla Craddock was 1-for-2 for McKenzie with a walk and a steal of home for the lone Lady Rebel run. Emily Lunn was 2-for-2 with a walk, and Autumn Pratt was 1-for-3.

Lady Rebels Host Softball Clinic

McKENZIE (March 12) — The Lady Rebels hosted a softball clinic Saturday in the McKenzie High School gymnasium for young

ballplayers in two age groups, 4-7 and 8-12. Participants broke up into smaller groups for several hours of drill in hitting, fielding,

and running bases. Each young lady received a T-shirt, a prize, and a ticket to a Lady Rebel home game this season.

Bat Cats Rally Late, Defeat Lyon, 9-8

Courtesy Bethel SID

McKENZIE (March 8) — Good teams find ways to win, and that is proving to be the theme for the 2016 Bethel University baseball team.

Trailing 7-2 entering the bottom of the fifth Tuesday at home against Lyon, the Bat Cats scored five runs to tie the game. After Lyon scored a single run in the top of the sixth, the Cats answered with a run in the bottom of the inning to tie the game, 8-8.

In the bottom of the ninth, Bat Cat Christian Padin led off the bottom of the ninth with a single, advanced to second on a steal attempt and bobbled by the Scots, moved to third on a sacrifice by Kendall Adkisson, and scored the game-winner on a wild pitch by Lyon's Tyler Tognarine to give the Wildcats a hard-fought, 9-8 victory.

The win was the sixth straight for the Cats, moving their season record to 17-3. The Scots fell to 8-11, snapping their three-game winning streak.

The big blow for Bethel in the fifth was a two-run homer by Colton Kail. Kail has homered in five of Bethel's last six games. Sam Seaton's solo shot tied the game in the sixth.

Christian Padin Chase Howell continued his timely hitting driving in two runs. Zachary Crocker and Gadier Charriez each had an RBI.

Steven White picked up the Bethel win in relief. Devon Austin suffered the loss for the visitors from Batesville.

Huntingdon Cross Country Team To Compete in Half Marathon

By Libby Dayhuff
McKenzie Banner Intern

HUNTINGDON — In addition to completing many successful meets and practices, the Huntingdon High School cross country team is preparing to run in the 44th Andrew Jackson Half Marathon. This is their second year to run as a team in the event, and they plan to make the half marathon a team tradition.

Along with other members of the community, the members and coaches have prac-

ticed since the beginning of January for the 13.1 mile-long race. The thirty-two participants run three times during the week together plus additional days alone to build up their endurance and speed. The group participates in the half marathon because it promotes the school's cross country program, and the entry fees support the Carl Perkins Center.

Last year, all team members finished with excellent times, and a few of them earned trophies. Elizabeth Lott, head

coach, claims that they will "sustain the pain" and go home with more trophies and happy memories this year.

The Andrew Jackson Half Marathon begins on the campus of Union University, and the scenic course includes popular Jackson routes such as Oil Well Road, Ashport Road, and Country Club Lane. The race features electronic chip timing, t-shirts, finisher medals, and trophies for the top three runners in each age division. Registration remains open until race day.

MATTER OF RECORD

McKenzie Police Reports

Aggravated burglary / theft-according to a report filed by MPD Sergeant Trey Boucher, Barry W. Moore, 52, Walnut Avenue, McKenzie, stated that he left his residence at approximately 7:00 a.m. on March 7 and returned the same day at 6:00 p.m. and found that someone had stolen several packages of beef and chicken valued at \$100 from his deep freeze. Mr. Moore stated that he had locked the doors to his residence when he left. The report noted that the doors and windows of Mr. Moore's residence were found to be secure.

Vandalism-according to a report filed by MPD patrolman Adam Bailey, the officer spoke to Allison R. Thompson, 24, Carroll Street, McKenzie, at her residence who showed a scratch on her 2015 Dodge vehicle starting at the front fender that weaved down the side similar to being keyed. Thompson said the damage had been committed within the past two days. She told the officer that she had recently traveled to Memphis the previous day and did not know if the damage was done there or in McKenzie. Damage to the vehicle was estimated at \$500.

Vandalism-according to a report filed by MPD patrolman Jeff Winberry, the officer was dispatched to a residence located on Newsome Street regarding some vandalism that was done to a vehicle registered to Cynthia Floyd, Shady Lane, Dresden. Upon arrival, Floyd said that someone had punctured two passenger side tires with damage estimated at \$113.98. The matter remains under investigation.

DUI / driving on suspended-revoked driver license-according to a report filed by MPD officer Cody Coleman, on March 10 at around 6:47 p.m., the officer received a call that someone had driven a 2011 Dodge AEX car off the road at the intersection of Barksdale Street and Morris Court and was tumbling in the middle of the road. Upon responding to the scene, Officer Coleman spoke to Karen Marie Hicks, 53, Pace Road, McKenzie and determined via her behavior that she might be under the influence of an intoxicant. During questioning, Hicks said that she had been run off the road by another vehicle. After stating that she had drank two beers earlier in the day, Hicks submitted to a request for standardized field sobriety testing. By that time MPD patrolman Lorrie Mulligan had arrived at the scene. After making several excuses to forgo field sobriety testing, a NCIC check revealed that Hicks license were revoked for DUI. Officer Mulligan transported Hicks to MPD while officer Coleman waited at the scene for a wrecker from D&D to arrive and take the vehicle to the MPD impound lot before being relieved by Sergeant Nick Lowe. Upon returning to MPD, the officer performed field sobriety tests on Hicks after she submitted to having blood-alcohol testing performed. After performing poorly on field sobriety tests, Hicks signed vehicle seizure paperwork before being transported to McKenzie Regional Hospital for blood-alcohol testing and being transported to Carroll County Jail and charged with the listed offense.

Possession of schedule VI and II-according to a report filed by MPD patrolman Lorrie Mulligan, on March 10 at approximately 12:05 a.m., the officer was performing a security check of B&G Motors via request by owner Greg Blackburn and discovered the door to the building was standing open and the light was on in the far left building. Upon entering the building, the officer encountered a man identified as Jorge Camacho Reynoso, 37, Highland Drive, McKenzie, who stated that he had been staying there and Mr. Blackburn was aware of it. After observed rolled cigarettes that appeared to be marijuana, the officer contacted Blackburn who said he would be on his way to the business. After receiving consent to search the building from Reynoso and

Blackburn, Reynoso confirmed that the rolled cigarettes contained marijuana. Reynoso also confirmed that one and one-half pills discovered were hydrocodone. Reynoso also stated that a small baggy discovered contained medical marijuana. Reynoso was then cited into Carroll County general Sessions for the listed offenses.

Sex offender registration violation-according to a report filed by MPD Sergeant Trey Boucher, on March 11 at approximately 6:42 p.m., the officer found Jimmie R. Smith, 72, sitting inside McKenzie City Hall. After telling the officer that he was homeless and in McKenzie for about one week, Smith asked if he could spend the night in the City Hall lobby. Due to Smith's living in McKenzie for a week without registering with MPD as a sex offender, he was arrested for said offense with bond set at \$1,000.

Forgery / theft / criminal simulation-according to a report filed by MPD patrolman Mark Boaz, on March 13, the officer and patrolman Kyle Beauchamp received a 911 call via dispatch stating that the caller was threatened by her brother-in-law and wanted MPD to take a report on the incident. Upon arrival, Teresa Rodriguez Gloria Cerrato, 24, Forrest Circle, McKenzie, said she was told by her brother-in-law, identified as Martinez Segudo Rolando, 35, McKenzie that he was going to hurt her badly because she had sent money to her sister-in-law so she could feed her infant son. She stated that she feared should Rolando be deported due to her filing the report on him, he might hurt her and her children once he came back from Mexico because he had allegedly been abusive to his wife and other women in the past. Miss Cerrato further stated that Rolando had stolen the keys and title of a blue-colored, 1998 Chevy Blazer that she and her husband owned and had forged her husband's signature on the title without her husband's knowledge. She also said that forged documents were inside the vehicle which was parked in front of her residence. After granting permission to officer Beauchamp to unlock the vehicle through a broken back window, documents were discovered in a black plastic box on the back seat. Cerrato handed officer Beauchamp five fake forms of identification, three fake social security cards, and two fake identification cards from Tennessee and Indiana. Cerrato then verified that Rolando was in America illegally from Mexico. The listed offenses were filed against Rolando.

Domestic assault-according to a report filed by MPD patrolman Kyle Beauchamp, on March 14 at approximately 4:30 a.m., MPD received a call regarding a domestic assault in progress at a residence located on Carroll Street. Responding, Officer Beauchamp, accompanied by MPD patrolman Mark Boaz and Sergeant Trey Boucher, was met in the front yard by Allison R. Thompson, 24, Carroll Street, McKenzie, who was holding her small child. She stated that upon returning home, she discovered that her soon to be ex-husband, Steven Tyler Thompson, 23, Carroll Street, McKenzie, was in her bedroom with his girlfriend and that she had kicked in the bedroom door because she wanted the girlfriend out of the house. Once inside the residence, the officers spoke to Mr. Thompson who stated that his wife came into the bedroom screaming and allegedly stating the she was going to kill his girlfriend. After forcing Mrs. Thompson out of the bedroom, Mr. Thompson said she kicked in the door and kicked him repeatedly, causing a bruise and skin abrasions on his left shin. The report noted that Mrs. Thompson was arrested for the listed offenses and transported to Carroll County Jail for a 12-hour hold with bond set at \$1,000.

Former Police Officer Arrested, Charged in TBI Charity Theft Case

JACKSON (March 11)—Special Agents from the Tennessee Bureau of Investigation have arrested and charged a former police officer from the Martin Police Department in connection with an ongoing theft investigation.

On March 6th, at the request of 27th District Attorney General Tommy Thomas, TBI Special Agents began investigating an alleged theft of approximately \$18,000 from a bank account established as part of the "Day for Anna Kate" fundraising effort. On several occasions in 2015, financial records indicated sums of money were removed from the bank account, which was established by Guy Pryor, who until recently worked as a police officer for the Martin Police Department. During the course of the investigation, TBI Agents, with the cooperation of the Martin Police Department, developed information that Pryor was

responsible for the theft.

Friday, Agents, assisted by deputies from the Glynn County (GA) Sheriff's Department, arrested the 34-year-old Martin man and charged him with one count of Theft over \$10,000. At the time of this release he was being held in the Glynn County Detention Center awaiting extradition to Tennessee.

Bruceton Police Reports

Theft under \$500-according to a report filed by BPD patrolman Danny Emerson, Judy Wallace, an employee at LifeCare Center of Bruceton-Hollow Rock, informed that someone had stolen an I-Pad from resident Peter Tolley's room valued at \$300.

Theft under \$500-according to a report filed by BPD Chief Ronnie Stewart, Jessica Heather Hill, Suncrest Drive, Bruceton, reported on March 3 that her wallet had been removed from her purse and stolen out of her unlocked vehicle. She noticed the wallet was missing the previous day at approximately 8:00 a.m. The wallet contained about \$25 in cash, her social security card, driver license, and bank card. The wallet is green and pink with tribal print and square in shape. The wallet folds and zips on the back.

Disorderly conduct-according to a report filed by BPD Sergeant Aaron Patton, on March 2, the officer received a call from Craig Frankie stating that Kathie Darlene Mann, 44, Lexington Street, Bruceton, was causing a disturbance at his residence. While speaking to Mr. Frankie on the telephone, the officer could hear Mann screaming at Mr. Frankie in an outrageous and threatening manner. Upon arrival at the residence, Ms.

Mann continued to yell and act excitedly and refuse to leave to diffuse the situation. At that time, the officer placed Mann under arrest for the listed offense and transported her to Carroll County Jail.

Identity theft-according to a report filed by BPD Chief Ronnie Stewart, on March 7, Samantha Jo Coleman, 26, Cedar Street, Bruceton, reported that a woman contacted her and stated that she had received some checks with Samantha's name on them from overseas. After communicating with the woman via Facebook, Coleman stated she thought the woman had a Kentucky address. Coleman was advised to cancel her bank account and re-apply for a new bank accounting number.

Credit / debit card fraud-according to a report filed by BPD Chief Ronnie Stewart, Jerry C. Hoskins, Highway 70 West, Bruceton, stated that he and his daughter went to Jackson on February 22 and tried to pay for their meal with his FirstBank credit / debit card, which was declined. That same day, FirstBank received a telephone call informing that someone had made an unauthorized cash charge of \$13.87 on Mr. Hoskin's account at a Kroger store located in Tupelo, Mississippi.

Assistant U.S. Attorney Speaks To Students

Debra Ireland, assistant U.S. attorney from the Memphis office, visited all the Carroll County high schools on March 9. Ms. Ireland spoke to the students about the dangers of the internet and the possible ramifications of social media.

Ireland informed the students that her job focuses around internet crimes. She hopes that by speaking to students, it will help prevent them from falling victim to a cyber-predator. Ireland stated that only six percent of the individuals charged in predatory cases are considered strangers.

In a world focused on self-interest, Ireland warned students that the real world is much different than what they see inside a school building. Information sharing and social media are gateways for young people to fall victim.

She continued with a warning about social media. Ireland advised her audience to be especially careful with what they share on their social media feeds. Many employers use social media in their hiring process. So photos or comments that might be deemed "socially inappropriate" could prevent a person from obtaining a job or even being accepted into a college or university.

Ireland added that cell phones can present themselves as a problem. Just because a message or photo has been deleted does not mean that it is completely gone. Ireland talked about the importance

of building strong passwords and always closing-out apps. Free Wi-Fi was another issue addressed. It was explained that anywhere you use free Wi-Fi, the information from your phone can be taken or you may not be actually connected to the business, but another person's phone that is downloading information.

Mandy Drewry, Director of Coordinated Health, a division of Carroll County Schools, arranged for the assistant U.S. attorney to speak to the schools.

Carroll County Sheriff's Reports

License Violation

•A Bruceton man was cited into court during a March 6 traffic stop on Voss Lane.

Deputy Mike Smith charged Steven G. Kosik, 25, of 390 Bobbitt Road with driving on a suspended license. Smith reported that he pulled over a vehicle driven by Kosik as part of a welfare check from an earlier call. A computer check showed that Kosik's license was suspended for a prior offense.

License Violation

•A Hollow Rock man was cited into court March 6 during a traffic check in Buena Vista.

Deputy Mike Smith charged Hunter Birdwell, 19, of 868 Barren Springs Road with driving without a license. Smith reported that while patrolling on Highway 114 South at around 3:30 a.m., he observed a truck driven by Birdwell just sitting at a stop sign for an unusually

long period of time. Smith approached the vehicle and spoke with Birdwell, who said he was changing clothes. When asked for his driver's license, Birdwell told Smith that he didn't have it.

Theft

•The theft of a vehicle tag was recently reported to the Sheriff's Department.

Thelma Jean Pace of Huntingdon told officers on March 9 that someone took the tag off her 1996 Chevrolet Cavalier while it was parked in her driveway some time on March 7. The tag was valued at \$79.

Bank Fraud

•The Sheriff's Department is looking into a recent case of bank fraud.

Sara Fitzgerald of McKenzie told officers on March 9 that someone took \$237.38 from her bank debit account on March 3 without her permission.

MATTER OF RECORD

Huntingdon Police Reports

Driving While Suspended
•A Huntingdon man was arrested on March 7 after a traffic stop.
Patrolman Paul Hugueley charged James Deberry of 14185 Paris Street with driving while suspended #5. According to Hugueley's report, Deberry was stopped on Paris Street for only having one headlight on. A computer check showed that Deberry's license was suspended.

Drug Possession
•A Gibson County man and woman were arrested on March 4 after allegedly leaving a bag of methamphetamine at a local store the week before.
Sergeant Brad Allen charged Cory Andrew Clayton Jr. of Humboldt with two counts of possession of schedule II methamphetamine, possession of drug paraphernalia, and driving while suspended #1. Whitney Brooke Cunningham of Humboldt was charged with possession of schedule II methamphetamine and possession of drug paraphernalia. According to Allen's report, police received a call from a Huck's employee saying that a man had dropped a plastic bag in the store. The bag contained methamphetamine. Police got a description of the man and his vehicle. On March 4 Carroll County Sheriff's Department Deputy Kenny Tucker stopped the vehicle on Highway 70 West. The driver, Clayton, was identified as the man from security footage. A K-9 unit indicated drugs were in the vehicle. Two pipes with methamphetamine residue and digital scales were found in the vehicle. Clayton

and a passenger, Cunningham, were taken into custody.

Driving While Suspended
•A Huntingdon man was cited into court on March 6 after a traffic stop.
Sergeant Brad Allen charged David Anthony Smith of 85 Jenkins Lane with driving while suspended #1. According to Allen's report, Smith was seen driving, and Allen had prior knowledge that his license was suspended. Smith was stopped and a computer check confirmed that it was suspended.

DUI
•A Henry County man was arrested on March 5 after a traffic stop.
Patrolman Randy Kelley charged Marty Lynn McKee of Paris with driving under the influence, violation of open container, violation of implied consent law, and driving without a driver's license. According to Kelley's report, police received a call that McKee had left Drew Court and that he was belligerently drunk. Kelley found McKee, who was swerving as he drove down Main Street. When McKee was stopped, an open beer was found in his car. He had slurred speech and was unsteady on his feet. He refused to perform sobriety tests.

Driving While Suspended
•A Huntingdon woman was arrested on March 5.
Patrolman Randy Kelley charged Eva Marschett of 22650 Main Street with driving while suspended, violation of registration, and violation of light law. According to Kelley's report, Marschett was stopped on

Highway 22 for having a headlight out. A computer check showed that her license was suspended. She did not have valid registration and her temporary tag was expired.

Public Intoxication
•A Bruceton woman was arrested on March 5.
Sergeant Richard Crossno charged Kathie B. Mann of 135 Lexington Street with public intoxication. According to Crossno's report, police received a call in regards to a woman at the corner of Jones and Murray Street in need of assistance. When officers arrived, Mann was clearly under the influence.

Driving While Revoked
•A Henry County man was arrested on March 5 after a traffic stop.
Patrolman Paul Hugueley charged Lonzie Dunlap of Paris with driving while revoked #4. According to Hugueley's report, Dunlap was seen swerving as he drove on Main Street. Dunlap was stopped on Mustang Drive and a computer check showed that his license was revoked.

Driving While Revoked
•A Huntingdon man was arrested on March 2 after a traffic stop.
Patrolman Brian Bennett charged Rickey Daniel Watkins of 1399 Northwood Drive with driving while revoked #3 and violation of registration. According to Bennett's report, Watkins was stopped for expired registration. A computer check showed that his license was expired. He also admitted to drinking a beer before driving.

Bruceton Water Department Water Quality Report for 2015

Is my drinking water safe?
Yes, our water meets all of EPA's health standards. We have conducted numerous tests for over 80 contaminants that may be in drinking water. As you'll see in the chart, we only detected 9 of these contaminants. We found 9 of these contaminants at safe levels.

What is the source of my water?
Your water, which is ground water, comes from the Memphis Sand Aquifer. Our goal is to protect our water from contaminants and we are working with the State to determine the vulnerability of our water source to *potential* contamination. The Tennessee Department of Environment and Conservation (TDEC) has prepared a Source Water Assessment Program (SWAP) Report for the untreated water sources serving water to this water system. The SWAP Report assesses the susceptibility of untreated water sources to *potential* contamination. To ensure safe drinking water, all public water systems treat and routinely test their water. Water sources have been rated as reasonably susceptible, moderately susceptible or slightly susceptible based on geologic factors and human activities in the vicinity of the water source. The Bruceton Water Dept. sources rated as reasonably susceptible to potential contamination.

An explanation of Tennessee's Source Water Assessment Program, the Source Water Assessment summaries, susceptibility scorings and the overall TDEC report to EPA can be viewed online at <https://www.tn.gov/environment/article/wr-wq-source-water-assessment> or you may contact the Water System to obtain copies of specific assessments.

A wellhead protection plan is available for your review by contacting Brian Edwards at the Bruceton Water System between 7:00 a.m. to 3:00 p.m. weekdays.

Why are there contaminants in my water?
Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Este informe contiene información muy importante. Tradúscalo o hable con alguien que lo entienda bien.

For more information about your drinking water, please call Brian Edwards at 731-586-2401.

How can I get involved?
Our Water Board meets on the second Tuesday of each month at 7:00 p.m. at Bruceton City Hall. Please feel free to participate in these meetings.

Is our water system meeting other rules that govern our operations?
The State and EPA require us to test and report on our water on a regular basis to ensure its safety. We have met all of these requirements. Results of unregulated contaminant analysis are available upon request. We want you to know that we pay attention to all the rules.

Other information
The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA and the Tennessee Department of Environment and Conservation prescribe regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Do I Need To Take Special Precautions?
Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have under-gone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about not only their drinking water, but food preparation, personal hygiene, and precautions in handling infants and pets from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Lead in Drinking Water
If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Bruceton Water System is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/lead/> protect-your-family%23water%23water

Water System Security
Following the events of September 2001, we realize that our customers are concerned about the security of their drinking water. We urge the public to report any suspicious activities at any utility facilities, including treatment plants, tanks, fire hydrants, etc. to 731-586-2401.

Think before you flush!
Flushing unused or expired medicines can be harmful to your drinking water. Properly disposing of unused or expired medications helps protect you and the environment. Keep medications out of Tennessee's waterways by disposing in one of our permanent pharmaceutical take back bins. There are nearly 100 take back bins located across the state, to find a convenient location please visit: <https://www.tn.gov/environment/article/sp-unwanted-pharmaceuticals>.

**MONDAY, MARCH 21 FROM 8:00 A.M.-3:00 P.M.
TUESDAY, MARCH 22 FROM 8:00 A.M.-6:30 P.M.
WEDNESDAY, MARCH 23 FROM 8:00 A.M.-3:00 P.M.**

To be eligible for **Pre-Kindergarten**, a child must be four (4) years of age by August 15, 2016.
To be eligible for **Kindergarten**, a child must be five (5) years of age by August 15, 2016.
State mandates require that all children be enrolled in kindergarten by their seventh birthday.

The following documents are required before a child can be enrolled in Kindergarten:
*Certified copy of birth certificate (hospital or mother's copy is not acceptable)
*Social Security Card
*Proof of Residence (i.e. utility bill with home address)
*Tennessee School Entry Medical Examination completed by medical doctor (physical)
*Tennessee Certificate of Immunization (Forms may be obtained from your doctor or health department)

The following immunizations are required and are to be documented on a Tennessee Permanent Certificate of Immunization (PH 2414):
*DPT series and booster, five (5) doses
*Polio series and booster, four (4) doses
*MMR, two (2) doses
*Hepatitis a, two (2) doses
*Hepatitis b, three (3) doses
*Varicella (chicken pox), two (2) doses or history of disease
**Shots must be on the new TN Certificate of Immunization as of July 1, 2010.

Please park in the front of the elementary school and enter though the office. If you are registering a child for Kindergarten, please bring them with you so that they can be tested!
Students will not be placed on a class list until all of the above information is submitted. For more information, please call the McKenzie Elementary office at 352-5272.

Water Quality Data

What does this chart mean?

- **MCLG** - Maximum Contaminant Level Goal, or the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- **MCL** - Maximum Contaminant Level, or the highest level of a contaminant that is allowed in drinking water. MCLs are set as feasible using the best available treatment technology. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.
- **MRDL** - Maximum Residual Disinfectant Level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for the control of microbial contaminants.
- **MRDLG** - Maximum residual disinfectant level goal. The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
- **AL** - Action Level, or the concentration of a contaminant which, when exceeded, triggers treatment or other requirements which a water system must follow.
- **Below Detection Level (BDL)** - Laboratory analysis indicates that the contaminant is not present at a level that can be detected.
- **Non-Defects (ND)** - Laboratory analysis indicates that the contaminant is not present.
- **Parts per million (ppm) or Milligrams per liter (mg/l)** - Explained as a relation to time and money as one part per million corresponds to one minute in two years or a single penny in \$10,000.
- **Parts per billion (ppb) or Micrograms per liter** - Explained as a relation to time and money as one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.
- **TT** - Treatment Technique, or a required process intended to reduce the level of a contaminant in drinking water.

Iron: Iron occurs naturally in our raw water and occasionally accumulates in the distribution system. Iron shows up as "red" or "rusty" water at your tap. Although you do not want to drink water that is not clear, iron is not considered to be a hazard to your health.

During the most recent round of Lead and Copper testing, 0 out of 10 households sampled contained concentrations exceeding the action level.

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

RUNNING FOR KYLIE
5K/FUN RUN

We cordially invite you to participate as a Sponsor of the Running for Kylie 5K/Fun Run. The event will be held on April 9, 2016 at McKenzie City Park. Running for Kylie will kick off with a 9 a.m. with the Fun Run, started by Miss Tennessee. The 5K begins at 9:30. Registration begins at 8 a.m.

Register by March 27 for \$15 for the Fun Run and \$20 for the 5K. After that, registration will be \$20 for the Fun Run and \$25 for the 5K.

This event will raise money to provide financial assistance to Kylie's family for her treatment

of Juvenile Idiopathic Arthritis (JIA). Kylie was diagnosed with JIA, this year, at only 2 years old. She is the daughter of Chris and Stephanie Taylor. JIA is a chronic disease characterized by persistent joint pain and inflammation. The disease is rare and only affects about 80-90 per 100,000 children. Kylie has a polyarticular form of JIA, which is the involvement of 5 or more joints. She has arthritis in her fingers, wrists, hips, knees, ankles, elbow, and was recently diagnosed in one of her eyes. With treatment, therapy, and activity Kylie can have a normal childhood leading to a normal adulthood. While the treatment can be very effective in controlling JIA symptoms, the costs can become a financial burden.

Your sponsorship can greatly help this family meet the financial demands of Kylie's intensive treatment. Please help this cause by becoming a sponsor of Running for Kylie. Our fundraising goal is \$5,000.

Platinum Level Sponsor: \$100 minimum; business name on the back of 5K t-shirts, name listed on sign during event.

Gold Level Sponsor: \$50 minimum; name listed on sign during event.

Thank you in advance for your consideration of becoming a race sponsor. Or, please call or email, Beth Mathis or Rhonda Chandler, to answer and questions. Beth can be reached at (731-415-4596), Rhonda can be reached at (731-225-5645). Also feel free to email us at runforkylie@gmail.com.

HAM AND BEAN DINNER

DIGITAL MAGAZINES,
NEWSPAPERS NOW
AVAILABLE AT GLEASON
MEMORIAL LIBRARY

For a trial period of one year, Gleason Memorial Library has expanded its digital collection with the addition of periodicals at reads.lib.overdrive.com. This new collection features nearly 200 popular digital magazines and newspapers, including Bet-

ter Homes and Gardens, Car and Driver, Cooking with Paula Deen, Dr. Oz, The Good Life, Fine Woodworking, HGTV Magazine, Men's Fitness, National Geographic, Newsweek, Prevention, Taste of Home, the New Yorker, and many more.

Users can check out periodicals on the same website where they currently borrow eBooks, digital audiobooks, and streaming video titles. All that is required is a valid library card and a Nook account. Titles can be read on a Nook tablet device, or readers can download a free Nook Reading App available for a multitude of smartphones and tablets.

If you are interested in participating in this trial program, please contract your library for assistance with downloading the apps and setting up subscriptions and/or take your device to the library. We urge library patrons to take advantage of this program since high participation levels will demonstrate patron interest and patron need for this service.
